CONGRESSIONAL HAPPENINGS IN WASHINGTON

By CLARENCE J. BROWN
Member of Congress

While no actual legislation was done, Capitol Hill was a very busy place last week. Monday the President delivered his Annual Message on the Union to a joint session of the Congress. On Wednesday he made his report to the Congress on the economic situation. On Friday the President's annual budget was presented to the national legislators. In between times both the House and Senate were busily engaged in organizing committees and in making other preparations to begin consideration of the mass bills which have already been introduced.

In his annual message on the State of the Union President Truman said much with which everyone could agree, and some things with which many disagreed. For instance the Chief Executive came out strongly for economy and efficiency in government, a balanced budget, reducing the national debt, a strong national defense, an united front on foreign policy, ending of strikes and work stoppage, for the elimination of jurisdictional strikes and boycotts, and against force and violence in labor disputes. However, when the President asked for the enactment of a number of New Deal measures he had sponsored in the last Congress such as Socialized Medicine, compulsory peace time military training, continuation of the draft, he received but little response from the New Congress. His message will not go down in history as a great state paper.

In his report on economic conditions last Wednesday President Truman predicted a rosy future for the business, industry and labor — with a great big IF attached. To sum up it all Mr. Truman promised we would have prosperity IF producers and retailers would reduce selling prices, workers do not ask for higher wages or go on strike, and another depression does not come along.

In this Budget Message last Friday the president requested \$7.5 billion dollars to run the government during the coming fiscal year, which begins on July 1. At the same time he estimated the tax revenues for the fiscal year would be \$7.7 billion dollars, which would leave a surplus of only two million dollars to be applied on our present \$259 billion national debt. At that rate it would only take 518 years to pay off the national debt. However, the most amazing thing about the President's budget is that his only proposed reduction in national defense, international affairs and veterans' services and benefits. The President suggested that spending in these categories be reduced by 6.6 billion dollars in 1948, as compared with 1947. For the other peace-time activities the President actually asked that the appropriations for 1948 be increased over those of 1947, by 1.77 billion dollars. Eliminating national defense and tax refund costs, Mr. Truman proposed spending 9.72 billion dollars more in 1948 than in 1946—the last war year. Another amazing feature of the President's budget message was his proposal to have at the end of the 1948 fiscal year—a year from next June 30th—two million one hundred thousand civilian employees on the Federal payroll—more than twice as many as in 1939, the last war-year. Incidentally, the total over all expenditures in 1939, including national defense, were only slightly more than nine billion dollars, while in the new fiscal year Mr. Truman asks for thirty seven and one-half billion dollars—more than four times as much as in the last peacetime year of the Roosevelt Administration. Republican leaders are sure the President's budget requests of \$7.5 billion can be cut by anywhere from \$4 to \$8 billion.

On the House side Representative Francis Case, author of the labor reform which was voted by President Truman during the last Congress, introduced a new bill which goes even farther than the vetoed one. The new Case bill not only provides for a cooling-off period, mediation, arbitration, liability for agreements, and outlawing of force and violence, mass picketing, boycotts and jurisdictional strikes, but would also permit the Attorney General to obtain injunctions against certain types of strikes, prohibit all political activities by union organizations such as the CIO-PAC to outlaw the closed shop. Another "Labor Bill" is being prepared by house leaders for introduction on the senate side of the Capitol, Senator Ball of Minnesota

YOW JACKETS IN ONE AND DROP TWO

The Yellow Jackets of Cedarville college dropped two games on the road while winning a thriller at the local gym between the pair of losses.

On last Thursday night they dropped to Wilmington on the Quaker hardwood 46-43 after the locals had been out in front for the better part of the fray.

Then on Saturday night at Alford Memorial gym, before a small crowd, the Jackets won a 75-73 verdict over the Oilers of Findlay. At one time in the early stages of the game the Jackets trailed by 19 points and it looked as if the Oilers were going to have an easy time of it but they snapped out of it and came on to win.

They trailed by 11 at the half and then put on a thrilling finish that would have done Hollywood proud. They finally squeezed out in front 71-69 only to have the count knotted twice more before the final bell.

On Monday they paid a visit to Moorehead State Teachers college in Kentucky and were handed an 89-45 lacing by the boys from the south. They had lost to the Kentuckians 99-59 here earlier in the season.

THOMAS J. HERBERT
OHIO'S NEW GOVERNOR

Ohio has a new governor since the inauguration Monday and the immense crowd that gathered for the event must have made a deep impression on Thomas J. Herbert, the fifty-second governor of the state. From all reports the white-haired World War I veteran was given an ovation fitting the occasion.

Governor Herbert assumes the reins of government with a united Republican party behind him. Both Houses of the legislature are Republican which should lighten his burden in giving the state such administration measures as he deems best for the interests of his state.

His inaugural address outlined a policy for the coming two years that is sound. He places taxation at the head of the list for immediate action for many taxing districts are in distress. The schools need more funds for the teaching profession is under paid, however many thousands of our citizens do not approve the method some teaching groups have adopted to have salaries increased. Teachers often forget like municipal employees, salaries are paid from funds out of the pocket of taxpayers, large and small. For this reason the taxpayer has a constitutional right that the administration will no doubt guard.

Governor Herbert is no novice in the conduct of public business. His experience under the former John W. Bricker as assistant attorney general and his subsequent terms as attorney general of Ohio gave him first hand information as to the needs of the state and above all how these needs should be met in fairness to both the state and the citizenry. The Governor has named men of prominence, experience and above all, character, to place in his cabinet as well as his official family.

It is our belief that the following paragraph from the Governor's address will be accepted by the people of this state as the keystone of the

Herbert administration and we fail to see how he could have made it plainer that he would insist on fair administration but at no time dictation that enslaved the nation under the New Deal formula:

"During this administration, we shall be guided at all times by the knowledge that the people of Ohio have a passionate desire for freedom of the individual. They want their government strong enough to protect without being strong enough to dominate—a government that administers, but does not dictate; a government that helps them to prosperity by lightening the burden of debt and

Congress must and will take action soon on the "portal to portal" holdup institution that is burdening Federal Courts with suits amounting to several billion dollars. Being paid for not working but walking to work and breaking a union contract, for that is what these suits are, are not being received by the public in good grace. Of course the first suit was before and granted by a Roosevelt New Deal judge. Nine out of ten judges on Federal Courts are New Deal "B-

has in the way of Congress must next turn its eyes on the courts that have been loaded with Kluxers, Communists, fake practitioners as well as countless fraud law professors and other types of the Democratic law profession where the individuals could not make a living at home among home folks who knew them best. If these suits stand against the largest as well as the smallest concerns making farm machinery, all will be in bankruptcy within thirty days thereafter—and there will be neither new machinery or repairs for the farmer. What Congress can do to head off suits now on file is a question but they can cut the fat salaries that have been given these barrister Democrats who have to eat. Moreover many of the new federal district courts can be abolished. That is another way to balance the budget.

Congressman Clarence J. Brown has introduced a bill in Congress to call for a bipartisan committee of ten members to investigate the executive department of the government and report on a plan to simplify, coordinate overlapping departments and reduce the cost of operation. It is

said the executive office of the government has become ten times larger than even during World War One and even President Truman has made no effort to reduce the staff and the cost in salaries and expenses to the government. If we read press comment a right Cong. Brown has touched on a subject that is approved by most all newspapers, irrespective of political lines.

Just how far proposed committee will go if approved by Congress has not been outlined. However, it is known that some very suspicious acts were committed under the Roosevelt, Hopkins New Deal reign. Even outsiders are credited with having been given certain powers back in those days that permitted favoritism in most all departments, especially in conduct of war. It might be interesting to read as to how some of prominent Democrats in and out of Congress landed on government payrolls and were exempted from war duty on order of FDR. It would be more interesting to know how the ins and outs of conduct of the war manpower commission and how Civil Service laws and rules were sidetracked. Fake Civil Service examinations must have had a prominent place under FDR

if all reports being circulated now by disappointed Democrats. The Brown investigation should go to the bottom of the New Deal administration. By all means do not leave out Wright and Patterson. It might be proven that scores of persons were given the "works" recently by order of the Man Power Commission in violation of Civil Service rules.

The fifty-second governor of Ohio has taken his seat and how many local people know the number of individuals have served in that capacity in Ohio? The answer is 52. Four have served multiple terms, some not in succession. The first governor was Edward Tiffin, a Democrat, who served from 1803 to 1807. The first Republican was Salmon P. Chase, 1856 to 1860. The Democrats have elected 24 governors; the Republicans, 23; Federalists 3; and Wigs 4. Greene County has never had a governor. Hamilton county, 13; Cuyahoga, 6; Clark, 1; and Montgomery, 2.

BROADCASTERS MEET

The Broadcasters Class of the Presbyterian church enjoyed a very interesting talk by Rev. Stanley Savage when they held their January meeting Tuesday evening at the home of Mrs. Mary McChesney. Rev. Savage told the class many interesting things about how people live in Ecuador. The Savages have recently returned from that country.

Mrs. McChesney was in charge of the evening devotionals. A business meeting was conducted by the president, Mrs. Hazel Edwards. Miss Erma Creswell and Mrs. Chaplin who composed the social committee served dainty refreshments to the nineteen members and six guests present. A color scheme of pink and white was used by the committee.

HERE FROM SOUTH AMERICA

Rev. and Mrs. Robert C. Savage and children, Stevie and Carolita are guests this week of Mrs. Savage's grandparents, Dean and Mrs. C. W. Steele. They arrived in Chicago Dec. 31 from Quinto, Ecuador, where they are members of the staff of the broadcasting station HCJB, "The Voice of the Andes". Rev. Savage is director of music and Mrs. Savage is staff pianist. They

have been in South America over four years and plan to return in 1949. They will return to Chicago Saturday.

Washington Letter

(Continued from first page)

has introduced a measure which is
not quite as far-reaching as the Case
Bill. In the weeks ahead labor leg-
islation will be much in the news.
Our Federal government has ben

growing at an amazing rate in re-
cent decades. In less than thirty years
the number of departments, bureaus,
and agencies in the executive branch
have increased from 153 to 1141. In
the same period of time the number
of Federal employees had jumped
from 438,057 to 2,766,165. Our gov-
ernment is too big, unwieldy in-
efficient and wasteful. The legisla-
tive branch has already been stream-
lined and reorganized. The time has
now come to take the first step to-
ward reorganizing and streamlining
the Executive Branch. With that
thought in mind pour humble con-
sistent last week introduced a
bill to create a bipartisan Commission

Executive Branch of the Government
for the purpose of promoting econ-
omy, efficiency and improved service
in the transaction of the public
business. Under the bill four members
of the Commission will be appointed
by the Speaker of the House, four by
the President of the Senate, and
four by President Truman, half of
whom would be from private life.

The General Code provides if the fee is not paid on or before January 20, the County Auditor shall assess a penalty of One Dollar. It specifically forbids the Auditor reducing, abating, or permitting any penalty required by law to be collected by him.
